- Pack Count: 840 Nested / 200 filled
- 53' TL: 45,360 nested / 5,400 filled

Protection You Can Count On

Whether it's under your sink, in your garage or on the store shelf, our patented design prevents moisture from damaging your product and protects tub contents during transport.

Easy Access to Grab-and-Go

A large opening allows consumers to quickly grab tub contents and go. Consumers simply press the tab in and push the lid up to open, and with a quick click it's snapped shut.

Maximum Brand Impact

Grab consumers' attention and promote your brand's unique marketing message on the large billboard area.

Space-Saving, Freight-Friendly Design

The rectangular shape of the tub is not only easy to handle with corner handgrips, but also optimizes retail shelf and warehouse space.

Safe & Secure

A tamper-evident tab alerts consumers to potential danger, while protecting the quality of your product.
