

# MULTI-POT & SEEDLING TRAYS

## Planting the Seeds for Success

- **Features:**
- Applications: Tree nurseries, Forestry, Citrus, Ornamentals, Ground Cover, & More!
- Material: High Density Polyethylene
- 100% Recyclable Post-Use

### **Rooted in Growth**

Your seedlings deserve the very best start. The Multi-Pot tray features vertical ribs inside each cavity to prevent root spiraling while encouraging plentiful and natural growth. A smooth cavity lining eases extraction for hassle-free transplant.

### **Designed to Last**

Multi-Pot and Seedling trays are designed to last for years in normal operations, not just a season or two. Trays are manufactured with High Density Polyethylene and UV Stabilizers to enhance life expectancy. They are easy to clean and not affected by pesticides or fertilizers.

### **Stackable & Nestable for Space Efficiency**

Optimal use of space is a primary concern for many growers. When not in use, Multi-Pot and Seedling trays are nestable and stackable for efficient storing and shipping.

### **Reusable & Recyclable**

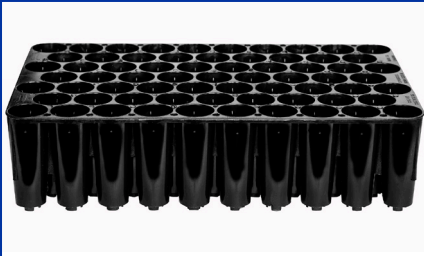

Multi-Pot and Seedling trays last for years in normal operation, reducing waste and preserving natural resources. At the end of its usable life, the Multi-Pot and Seedling trays are 100% recyclable.

# SPECIFICATIONS

Mauser Packaging Solutions manufactures a number of different Multi-Pot trays used for forestry, citrus and ornamental uses, as well as herbs, ground covers and vegetables.

PRODUCT CODE	PRODUCT NAME	DIMENSIONS			CAVITY VOLUME (cubic inches)	CAVITY PER TRAY	CAVITY DIAMETER (inches)	CAVITY PER SQ. FT.	QTY. PER PALLET
