<sup>1</sup>Can Measurements: The first set of digits indicates the diameter in 16ths of an inch (307 = 3 + 7/16"). The second set of digits indicates the height to the top doubleseam in 16ths of an inch (704 = 7 + 4/16").

## Special Features

- ▶ 1-1/8" beta nozzles are drip-free.
- ▶ Cans can be fitted with child-resistant caps and pass UN certification for combination packages.
- ▶ 24 mm and 32 mm REL flanges use plastic snap-in fittings offered in a variety of specifications for pourable products.
- ▶ 211 diameter easy open ends are available for pouring with child-resistant features.
- ▶ Cans are bulk packed on pallets or shipped in cartons.
- ▶ Loose ends for easy open cans are packed in paper sleeves.
- ▶ Full lithography is available on bodies.
- ▶ Cone and pour top cans contain 25-percent post-consumer recycled content and are 100-percent recyclable.
