About Mauser Packaging Solutions

Mauser Packaging Solutions is a global leader in solutions and services across the packaging lifecycle, providing large and small metal, plastic, fiber, and hybrid packaging worldwide to companies in industries from food, beverage, personal care, and pharmaceuticals to chemicals, petrochemicals, agrochemicals, medical waste, and paints.

True sustainability at scale

For the first time ever, you have a single packaging partner who can reliably deliver solutions across the full packaging life cycle—around the globe.

Mauser Packaging Solutions, formed in 2018 by BWAY, Mauser Group, NCG, and ICS, brings unparalleled packaging performance and innovation to redefine sustainability for customers. From new packaging made from recycled content to reconditioning, reuse, recycling, and professional disposal, we provide customized solutions that have a positive impact on businesses and the planet, bringing true sustainability at scale to companies all over the world.

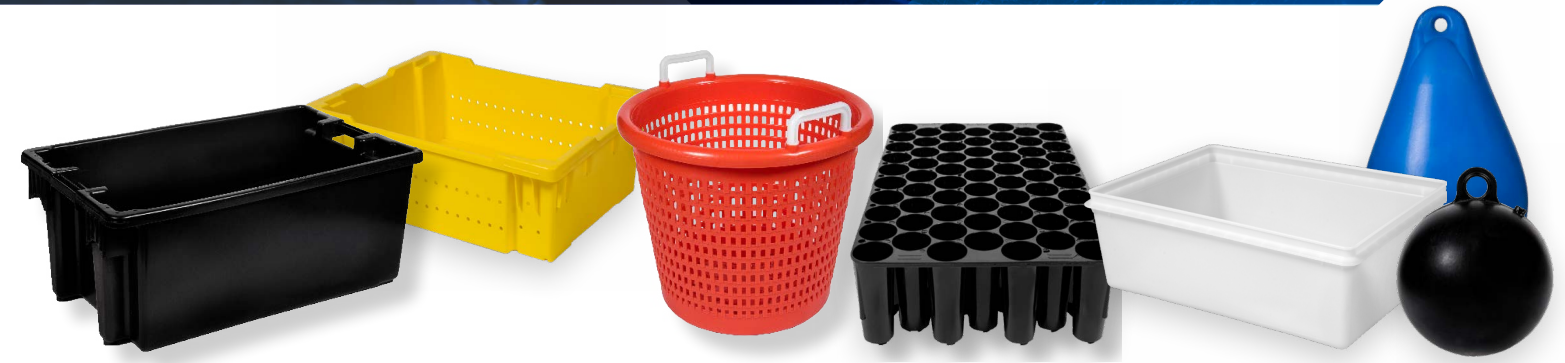

Together, we have over 330 years of combined experience, more than 1,000 global patents, over 180 sites around the world, and over 11,000 employees committed to helping companies like yours operate more sustainably and effectively.

Global reach for worldwide impact

With our global network of design, manufacturing, reconditioning, and recycling facilities, we can deliver high-quality packaging solutions across the full packaging life cycle—virtually anywhere you need it.

By engaging in this complete cycle, your company can achieve true sustainability at scale. You benefit from a consistent global supply chain,

a wide array of packaging options, new business growth opportunities, and a chance to leave a lighter environmental footprint. You can feel better about doing your part to protect our planet. And by sharing that story with your customers, you can help them feel even better about working with you.

Supporting your business from ship to shore - and beyond.

Mauser Packaging Solutions delivers a complete line of specialty containers built to meet the rigorous demands of the agriculture, fishing, and egg production industries. From field harvesting to seafood transportation, our durable products are engineered for performance, efficiency, and long-lasting reliability.

Purpose-built designs, customizable options, and proven real-world durability ensure the right solution at every stage of your operation. Our portfolio includes multipot and seedling trays, ship n' shore containers, field harvesting and berry boxes, egg trays, fillet pans, floats, fish baskets, and barrels, each thoughtfully designed to support product integrity and handling efficiency.

Manufactured from high-quality HDPE, our solutions withstand harsh conditions, repeated use, and demanding supply chains. Backed by deep industry expertise and a commitment to continuous innovation, Mauser Packaging Solutions helps you streamline operations, protect your products, and deliver consistent value from harvest to market.

Multipot & Seedling Trays

Multipot and Seedling Trays give young plants a strong, healthy start with durable, grower-friendly construction. Smooth cavity walls and vertical ribs support natural root development and easy release during transplanting. Made from UV-stabilized, high-density polyethylene, the trays resist wear and tear from fertilizers, pesticides, and frequent washing. Their stackable, nestable design saves space in greenhouses, nurseries, and shipping, while long service life and full recyclability support sustainable growing practices.

KEY FEATURES

- ▶ HDPE material
- ▶ Meets FDA requirements for food contact
- ▶ Smooth cavities and vertical ribs for healthy root growth
- ▶ Available cavities per tray are 45, 67, and 104
- ▶ Stackable when full and nestable when empty
- ▶ Recyclable post-use

Ship N' Shore Totes

Ship 'N Shore Totes are rugged, high-capacity containers built for demanding marine and dockside environments. Made from heavy-duty HDPE, they stack securely when full and nest efficiently when empty for valuable space savings onboard or shoreside. Available in a 70-liter capacity and multiple colors, these totes support efficient ship-to-shore handling and offer customization for identification and branding. Designed for wet, heavy-load conditions, Ship 'N Shore Totes help keep operations running smoothly.

KEY FEATURES

- ▶ HDPE material
- ▶ Meets FDA requirements for food contact
- ▶ 70 L
- ▶ Snap on cover with corrugation available to promote water drainage
- ▶ Molded-in full-grip handles
- ▶ Recyclable post-use

Field Harvesting / Berry Boxes

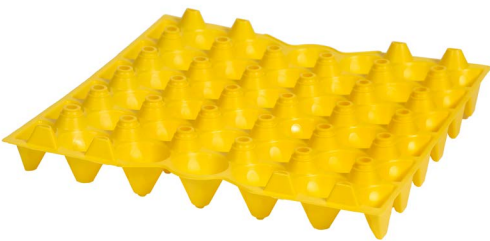

Mauser Packaging Solutions' field harvesting boxes are trusted for collecting and transporting a variety of small produce items. These easy to clean trays are manufactured with HDPE and are a durable alternative to wood or wire options. Optional drain holes support efficient washing and handling, while multiple colors and customization options simplify identification and organization. Durable and versatile, these boxes protect your product while supporting high-efficiency operations.

KEY FEATURES

- ▶ HDPE material
- ▶ Meets FDA requirements for food contact
- ▶ Available in 40 and 60 pound capacities
- ▶ Nest securely for efficient storage
- ▶ Stack for superior load capacity
- ▶ Resist splintering and absorbing moisture (unlike wood crates)
- ▶ Can include side and bottom ventilation holes and optional center dividers
- ▶ Recyclable post-use

Egg Trays

Our innovative egg tray design has proven itself protecting fragile eggs during transport for more than 35 years. Made from durable HDPE material, Mauser Packaging Solutions' egg trays accommodate a variety of egg sizes and help prevent breakage. Designed to fit more grading and washing systems, trays are resistant to temperature fluctuation and harsh detergents.

KEY FEATURES

- ▶ HDPE material
- ▶ Meets FDA requirements for food contact
- ▶ Resistant to detergents and temperature fluctuations
- ▶ Variety of colors for grower identification
- ▶ Designed to last for years in normal operations
- ▶ Large cone openings to prevent breakage
- ▶ Recyclable post-use

Fillet Pans

Mauser Packaging Solutions fillet pans protect fresh fish during packing, transport, and storage. Available in 10, 20, and 25-pound capacities, these durable pans feature secure snap-on lids to help maintain freshness and safety during shipping. Lids and pans can be custom printed to include branding and product details. Designed for repeated handling, these pans perform reliably in demanding seafood environments.

KEY FEATURES

- ▶ HDPE material
- ▶ Meets FDA requirements for food contact
- ▶ Available in 10, 20, and 25-pound sizes
- ▶ Snap-on lids help maintain freshness
- ▶ Lids can be custom printed with company logos and product information
- ▶ Recyclable post-use

Floats

Mauser Packaging Solutions floats are engineered for superior buoyancy and long-term durability in applications such as mussel farming, oyster farming, and longline shellfish cultivation. Manufactured with the same level of structural quality as our industrial containers, these floats undergo rigorous testing for strength, impact resistance, and buoyancy stability. Available in multiple sizes and colors, they deliver dependable performance in both nearshore and offshore environments.

KEY FEATURES

- ▶ HDPE material
- ▶ Meets FDA requirements for food contact
- ▶ Superior buoyancy and stability
- ▶ Long term durability and strength
- ▶ Recyclable post-use

Fish Baskets

As rugged as it is practical, our all-purpose basket is ideal for seafood harvesting and handling applications. Made from high-density polyethylene, baskets resist cracking, and can withstand temperature extremes and repeated washing. Their ventilated design supports drainage, while their stackability provides space savings when not in use. Optional colors help operators maintain quality, organization, and efficiency.

KEY FEATURES

- ▶ HDPE material
- ▶ Meets FDA requirements for food contact
- ▶ Weighs just 4.3 pounds while supporting up to 40 pounds of product
- ▶ Sturdy and comfortable handles
- ▶ Designed to be rugged and long-lasting for demanding work environments
- ▶ Recyclable post-use
